

We are working to have the CWPP document drafted by our next planning session for the core group and partners to provide comments and input on the CWPP draft. Emphasis on the fact that this will be a draft, so while we want it to be as complete as possible it won't be done and will still in draft form. The goal of this is to get the document draft out and available for public review and to enter a two-week public comment window. At this next planning session on 6/18, the core group would decide if the draft is ready to enter the public comment window.

As of now, the CWPP draft is tentatively set to be ready by June 21st and a public hearing is scheduled for July 10th at the OK County Fairgrounds-Agriplex. The hearing date will ultimately be determined by the core group on 6/18.

The next steps would include incorporating public comments and input, then finalizing the document to submit to the Okanogan County Commissioners. They would forward the document onto the appropriate state and federal agencies.

9:40 – 9:45 Next Steps & Other Items

Another topic to discuss at the next planning session would include how we plan to reconvene in future years for commitment to revision of the CWPP. This might look like meeting annually prior to fire season to check in about CWPP projects and mitigation planning actions.

9:45 Adjournment

2024 CWPP – Planning Session
